# Xtreme Protection

Because we know our diesel engines, transmissions and drivelines, we know what needs to go into the lubricants that will give them the Xtra protection they need to cope with Australia's Xtreme operating conditions. Protection that maximises each components performance, durability, and a longer, productive life. After all, you bought your Hino to work hard, day after day, year after year. So do your Hino a favour and check out the new generation of Genuine Series lubricants at your nearest Hino dealer today.

For your nearest dealer visit [hino.com.au](http://hino.com.au) or email us at [parts@hino.com.au](mailto:parts@hino.com.au) or call us on 1300 014 466

# COOL CHANGE

## COOLANTS MADE JUST FOR HINO TRUCKS

Hino engines are designed to perform under extreme operating conditions.

Such conditions place enormous stresses on an engine's cooling system.

That's why Hino engineers specify Hino genuine coolants for maximum cooling system protection.

For your nearest dealer visit [hino.com.au](http://hino.com.au) or email us at [parts@hino.com.au](mailto:parts@hino.com.au)  
or call us on 1300 014 466

- Unit comes with magazine compartment.
- Cooling temp range 10 - 0°C.
- Warming temp range room temp to 55°C.

The 3 year / unlimited kilometre warranty and 1 year / 100,000 kilometre warranty apply to defects in workmanship and materials only, and do not cover fair wear or tear of the part / accessory. If the Hino genuine part or accessory is modified in any way, any Hino warranty that may have been applicable to that Hino genuine part or accessory, including but not limited to the 3 year / unlimited kilometre warranty and the 1 year / 100,000 kilometre warranty is voided. Photos for illustration purpose only. All prices include GST. Only while stocks last. No rainchecks on Limited stock items. Edition valid from 01/01/2015 to 31/03/2015. All reasonable care is taken to ensure that the information contained in this publication is accurate at the time of printing, however, such information is liable to errors and/or change without notice subsequent to the date of printing.

# MAXIMISED POWER

## ROBUST CONSTRUCTION DELIVERS LONG LASTING PERFORMANCE

- ✓ Built for Australian conditions
- ✓ Advanced technology

### BUILT IN WATER INDICATOR

For on-the-spot diagnosis of the battery's state-of-charge

### HINGED VENT COVER

Enables easy access for maintenance to maximise battery life

### CENTRE LUG

Central position for improved current flow and vibration resistance

### SUPER PLATE SEPARATION

Advanced envelope separator material providing increased puncture resistance and protection from short circuit

### POSITIVE GRID ALLOY

Improves durability, reduces plate growth and enhances battery life

### RADICAL GRID DESIGN

Lower electrical resistance for higher starting power and faster recharge

### LONG LIFE PLATES

Thicker cast construction and paste coating of the positive grid to increase battery life

### MUD RACK DESIGN

Specialist support racks for plates, minimises short circuit and vibration
